International Refereed Journal of Engineering and Science (IRJES)

International Refereed Journal of Engineering and Science (IRJES) is a peer reviewed online journal for professionals and researchers in the field of computer science. The main aim is to resolve emerging and outstanding problems revealed by recent social and technological change. IRJES provides the platform for the researchers to present and evaluate their work from both theoretical and technical aspects and to share their views.

International Refereed Journal of Engineering and Science (IRJES) is a leading international journal for publication of new ideas, the state of the art research results and fundamental advances in all aspects of Engineering and Science. IRJES is an open access, peer reviewed international journal with a primary objective to provide the academic community and industry for the submission of half of original research and applications.

The core of the vision IRJES is to disseminate new knowledge and technology for the benefit of all, ranging from academic research and professional communities to industry professionals in a range of topics in computer science and engineering. It also provides a place for high-caliber researchers, practitioners and PhD students to present ongoing research and development in these areas.

IRJES Mission

- Share FREE knowledge
- Contribute to change
- Provide the best service
- Promote research
- Aid development

IRJES Aim

The Journal is to provide a medium through which Engineering Researchers and scholars from around the world would be able to publish their scholarly papers applied and/or fundamental research works.

IRJES Subject Category

- Electrical, Electronics and Computer Engineering,
- Information Engineering and Technology,
- Mechanical, Industrial and Manufacturing Engineering,
- Automation and Mechatronics Engineering,
- Material and Chemical Engineering,
- Civil and Architecture Engineering,
- Biotechnology and Bio Engineering,
- Environmental Engineering,
- Petroleum and Mining Engineering,
- Marine and Agriculture engineering,
- Aerospace Engineering.
- many more engineering fields.....

Submit your paper in IRJES

Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated by IRJES. All articles are subjected to a peer-review process. All submitted articles will be judged based on their quality

Authors are requested to submit their articles in M.S Word format to the e-mail id: irjes.editor@gmail.com or online submission process on IRJES website www.irjes.com

Terms of Submission

Papers must be submitted on the understanding that they have not been published elsewhere and are not currently under consideration by another journal. The submitting author is responsible for ensuring that the article's publication has been approved by all the other coauthors. It is also the authors' responsibility to ensure that the articles emanating from a particular institution are submitted with the approval of the necessary institution. Only an acknowledgment from the editorial office officially establishes the date of receipt. Further correspondence and proofs will be sent to the principal author before publication unless otherwise indicated. It is a condition of submission of a paper that the authors permit editing of the paper for readability.

Peer Review

All manuscripts are subject to peer review and are expected to meet standards of academic excellence. Submissions will be considered by an associate editor and if not rejected right away by peer-reviewers, whose identities will remain anonymous to the authors.

Paper Acceptance:

The final decision on publication is made by the Editor-in-Chief upon recommendation of the Editorial Board Members. If the manuscript is accepted for publication, it must not be published in any periodicals elsewhere without the permission of the editorial board

Copyright Form

Open Access authors retain the copyrights of their papers, and all open access articles are distributed under the terms of the Creative Commons Attribution license, which permits unrestricted use, distribution and reproduction in any medium, provided that the original work is properly cited.

The use of general descriptive names, trade names, trademarks, and so forth in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.
